NEWHAM CHAMPIONS

DECEMBER 2021

Our children are our future.

Every child deserves to be happy, to be warm, to have enough to eat and to be safe. No child should be denied those rights, and yet an increasing number of children are living in poverty, experiencing homelessness or suffering other forms of marginalisation.

The experiences that children have in the early years of life shape their lives and how they interact with the rest of the world. Many illnesses or negative life events can be traced back to disadvantage and inequalities in childhood, whilst positive experiences and a secure, loving environment promotes healthy emotional, mental, and social development. One of the great things about children is their resilience. We know they can recover from difficulties given the right support.

Now more than ever, it is time to work together to support children as they rebuild their lives post the COVID pandemic.

We don't know all the effects the pandemic has had on children growing up during these challenging times, but it is important that we hear about them first-hand. At the same time, we must look into the future, listen to their dreams and help our children to achieve them.

As they say, a 'picture is worth a thousand words'. The CHAMPIONS Project wishes to thank the London Borough of Newham and Graffwerk for helping us to hear the children's voices through street art. Every drawing tells us a story and we thank the children and their families for sharing them with us and with you.

Together with all of our partners, the CHAMPIONS project team look forward to supporting the invisible to be visible and to be the agents of change.
